Discovering Exterior Car Accessories- for a Glamorous Look and Easy Ride by [John Brin](#)

Article published on January 19th 2012 | [Auto](#)

Exterior car accessories are well designed items that embellish and protect your vehicles. There are various kinds of exterior car accessories present in the market. While some are found cheap, there are others that are very expensive. Furthermore, there are those that keep on developing time and again. It's a fact that new car accessories are launched in the market from time to time. Among the basic exterior auto accessories we find billet grilles, bull bars, deflectors, running boards, and tonneau covers to mention a few.

Now the major function of the exterior auto accessories is to make your vehicle look attractive. However, exterior auto accessories like the trailers, the tonneau covers also serves a lot of purposes. For instance, the trailers are found useful in assisting you carry out the additional load. In this respect, it will important to know about the basic exterior car accessories mentioned above and the purpose served by each one of them.

Deflectors

Deflectors are common in SUVs and trucks and helps keep debris and insects from striking the windshield. Thus automotive accessory is specially designed including a rising ridge which develops slipstream effect carrying the dust and microbes over top of a car. A hood deflector or hood shield also safeguards the hood from trenching due to the tar, flying pebbles and road debris.

Tonneau Covers

One of the useful exterior car accessories, the tonneau covers are used to safeguard cargoes from bad weather and from the risk of being stolen. Such covers even add to aerodynamic properties of truck that in turn improves the gas mileage. There are various kinds of tonneau covers to choose from whether you are driving a GMC, Dodge, Ford, Toyota, Nissan or Chevy makes of truck.

Bull bars

Grille guards or bull bars are well designed so as to protect the vehicle's front end in event of collision. The bull bars are made up of different materials. These include aluminum tubing, welded steel, and plastic.

Billet Grilles

Billet grilles are used to customize the presence or look of the vehicle. Billet grilles are readily available for every model and regardless of type, whether it's a SUV or a truck or a car. The chrome plated or coated stainless steel grilles are considered of highest order as most drivers look for them.

Running Boards

The running boards are designed to assist the passengers of a car to get in as well as get out of the rig safely, quickly and conveniently.
