Article published on June 26th 2012 | [Business](#)

If you are in the market for a car, many experts might advise you to purchase a pre-owned vehicle instead of purchasing a brand new car. Many owners are quick to replace their vehicles and this means there are several barely used cars available in dealerships. One of the most popular car models among car buyers is Ford.

The Ford Motor Company has been around for more than one hundred years and is considered as one of the top car manufacturers in the world. The company is known for mass producing different kinds of automobiles around the globe. Needless to say there is no shortage of Ford vehicles in Ontario used car dealerships from Burlington to Mississauga. If you are shopping for a used Ford car under \$30,000, listed below are some of the most well received vehicles under this price range:

### 2002 Ford Thunderbird

Internet Price: \$22,999

The 2002 Ford Thunderbird is ideal for Ontario motorists who are looking for that cool vintage style. ### 2011 Ford Fusion Sedan

Burlington residents who are looking for something a bit more sensible may want to consider the 2011 Ford Fusion. This four door sedan was touted by car expert Edmunds.com as its top picks in terms of mid-sized family sedans. Sellers of used cars in Burlington Ontario might recommend this due to its V6 Flex Fuel 3.0 Liter engine and six speed automatic transmission. It is also noted for its roomy interiors and easy handling.

### 2012 Ford Focus Hatchback

Dealers of used cars Mississauga buyers can count on would probably recommend the 2012 Ford Focus Hatchback because of its many reliable features. This includes a four cylinder 2.0 Liter engine as well as an automatic transmission with auto-shift. It also has a rather stylishly designed interior.
