If you are reading this, you must have tried almost every other possible way of celebrating a birthday party (be it for your loved ones, family or friends); which is why you are looking for a different alternative. Well fear not; because not all of your birthday party ideas have been exhausted.

Every year, that time of the year comes and goes and it is our job (being the good relatives and friends that we are) to make that time of the year for them a memorable one. Now to make something memorable it has to have a twist to itâ€™something differentâ€™something the person whose birthday it is, has not tried before. It should raise the level of excitement and definitely be a surprise.

It couldnâ€™t get any better than this, invite the whole gang onto a dhow dinner cruise in Dubai and then drag the birthday boy/girl in for a surprise. It definitely will blow their minds; the whole gang or family on the dhow having a good time; leading to memorable moments giving your friend or family member, a party they will always remember in the years to come.

A dhow may look traditional and rustic on the outside, but inside it has all the amenities to keep its passenger on the cruise entertained for the entire evening. Food will also be taken care of; the dinner menus offered by various cruises often varies according to the taste of the passengers on board. All you have to do as the party organiser is to tell them the number of people attending the party and they will take care of the rest. You can choose your music and the decor and the dhow cruise company will take care of it and make sure that you and your folks leave for home, content and satisfied. Most dhow dinner cruises in Dubai even have a live DJ so you can be sure that the mood of the party is set as per your likings.

Planning a dhow dinner cruise party in Dubai is simple, just set the date; contact all your friends who you want to invite and contact one of the many Dubai dhow dinner cruises companies at the Marina. If you do not have the time to do the same, simply connect to them via their websites and they will handle the rest for you. Now all thatâ€™s left is setting the plot and executing it; leading to the big surprise.
