The world of entertainment is getting bigger by [Girl Gamer](#)

Article published on August 8th 2012 | [Games](#)

There are several ways through which people can entertain themselves. It's the world of entertainment; those days were gone when children used to play in the mud, in bright sunlight, rain for entertainment. If not then they started watching the idiot box, popularly known as a television set. Soon the scientists and engineers realized and they invented the video game. It's a virtual world in where children always think of being. Video games are just like revolution in the entertainment level of kids, teenagers as well as adults. Everyone gets fond of it, the creativity, graphics; sounds being used in today's games are so much interesting that no one can get escapes from it. There are several games available in the market, and the market share of these games is increasing day by day in the entertainment sector.

It's time to know about something about the most common and popular games around the world. At first we talk about Brink, it is a first-person shooter video game developed by splash damage for Microsoft windows, play station 3 and Xbox 360. It was first released in May 2011, in North America and then it spread all around the world. The other game that broke the records of its sales and in popularity is Alliance of Valiant Arms popularly known as AVA. AVA is a modern FPS game like many others apart from the fact that the game has included top-notch graphics along with an in-depth story and varied game play. AVA is based on an untrue war between the European Union and the Neo-Russian Federation.

If you are a gamer then it is not possible that you haven't heard about the APB: All Points Bulletin. It is a multiplayer online video game for Microsoft windows based in urban sprawls and featuring two factions, Enforces and the Criminals. Players can join either the Enforces or the Criminals, and form sub-groups in either faction. It was released on June 2010 in North America and Europe.

As the game gets popularity its cheat codes also get more popular than it among the gamers. Doing a search on Google for brink cheats, Ava hacks or APB reloaded hacks you will get millions of results full of online tools that help players cheat in online games. The popularity of these tools caused an increase of gamers in the world. While there is nothing that says in the rule book of these games that you can't use the cheat codes to win and put your name on the top of the scoreboard.
