How to do-up a one-room apartment? by [Phil Marsh](#)

Article published on August 20th 2012 | [Interior Design](#)

Did you just moved in the city? Are you new to the place? Are you looking for a bigger home but unable to find one? Well, that is city life for you! A city life is wrought with less space, more opportunities and lot of noise!

It would not be a wonder if you are unable to find a decent place to live and the only thing that you can get is a small one room apartment with just a little terrace and a bathroom attached! Well, homes in a city are like that- tiny.

But, it doesn't mean that you can't do up your one room apartment in a way that you would not only be comfortable to live in the space but you would also love to flaunt it in front of your friends and guests who visit you. All you need to do is little bit of planning and some research before investing money in any kind of furnishing. You need to invest in good quality and multi-usage furnishing like veneer wood etc.

You need to measure the total area you have at your disposal and work towards utilizing it in the best possible way. You need to create a separate corner for your kitchen space. The best way to do that is by bringing home wooden partition to separate your living area from your cooking area or just hanging some beads like a curtain to give the space a more stylish edge and also fulfill your needs.

You need to bring in some beautiful and interesting lights for your one room apartment and dress your apartment with these fascinating lights to lift up the whole space. Buy some colorful and distinct looking curtains for your home to further enhance the way your apartment looks. Just make sure that you stay away from very bright colors while decorating your apartment as dark colors make an area look smaller and cramped!

Install some good quality decorative veneer countertops to ensure that you have enough space to keep all your stocks and also display your accessories you want to in your room. You can use these countertops as tables too and be totally relaxed about maintenance as these are low-maintenance products.

You need to visit a few flea markets and also visit the nearest veneer manufacturer to pick the best possible deal on furnishing items for your one room apartment. You need to buy a decent couch from the local flea market and also bring in some spare chairs. Happy designing and decorating your apartment!
