Secured loan offers low interest rates by [Helen Jones](#)

Article published on December 1st 2011 | [Loans](#)

With a secured loan you can borrow a substantial amount by collateralizing an asset against the loan. Secured loan is a good alternative if you want to borrow an elevated amount. Lenders always offer an elevated amount to those who have an asset to secure against the loan. You can use the loan amount to fulfill your personal needs. You can spend the amount to purchase a home; you can pay for your child's education and even you can do lots more things with the money you have taken in the form of secured loan.

The limit of the amount that can be taken in a secured loan can vary from £ 5000 to £ 75000 for the time period of 5-25 years. As it is a secured loan, interest rate offered by the lender is less than other loans. This is because the asset you have presented to procure a loan works as a collateral and gives an assurance to the lender that he will not lose his money.

You can search the web to search the authorized lenders across UK. You can even use mortgage calculators of various lenders to compare the suitable plan according to your financial stability. You should deal with the reliable lender to reduce the risks associated with the loan and must sign a contract only with the lender who have Finance Service Authority (FSA).

Do you want to procure a secured loan with authorized lender? We are the leading lender among others.
