Finding New Vinyl Albums and High End Turntables by [Seth Frank](#)

Article published on May 3rd 2012 | [Music](#)

Are you interested in vinyl albums? Maybe you are considering becoming a professional DJ. If you love music, you know just how important vinyl and turntables still are. Most people don't even realize that these items are still on the market. The last few years alone have shown a rise in sales of vinyl music. This is great news for not only the industry but also merchants and independent record stores. You may have begun to notice some retailers selling more of the products lately. Finding what you want in vinyl and turntables is becoming much easier.

Independent record stores are the obvious place to find new records and turntables. If you live in a town that has an independent record shop, you are in luck. These stores are often run by people who love music just as you do. This means they know what to stock. You will be able to find the largest collection of old, new, and used vinyl. You should also be able to find a selection of record players. An independent record store can be a great place to find what you want, but mostly it can provide a great experience. It is also a nice idea to support a business in your local community.

You might be surprised to learn that new artists today are releasing music on digital formats as well as vinyl. This means many retail chain stores are stocking vinyl by new artists. At any electronic store or lifestyle store, you can find new VPI 16.5 turntables and records by your favorite bands. These stores can be a great place to find a big variety of albums as well as turntables from some of the best manufacturers. If you are a music professional, these places can be some of the best options for great turntables.

Your other options are obviously on the internet. This can be a great place to find new and old vinyl. If you are looking for special things like Bob Dylan vinyl albums, this is the place to search. You will also be able to find great record players from a ton of different manufacturers. It can also be a place to find used items from people on auction sites. If you can find something relatively new for a much lower price, you are in luck.

Your options for new vinyl albums and high end record players are endless. With today's growing marketplace, they are easier to find than ever. Everything old is new again.
