Aerial photography â€” into the thin air Andrewsiddle2011@yahoo.com

Article published on June 14th 2012 | [Photography](#)

Imagine what Edmund Hilary wouldâ€™ve thought if he could actually move higher than gangly Mt. Everest, click the surroundings around him. He couldâ€™ve clicked the pristine backdrop even from the base of the Everest but clicking it from thin air while being higher than the top of the world, wouldâ€™ve meant an altogether different feeling and a perspective which wouldâ€™ve been rare and had stayed untamed for a long. Aerial photography is a virtue which is considered as a rare feat to achieve due to the nature of the requirements it demands but it provides the complete worth of the efforts invested while tackling this beautiful form of photography.

Aerial photographs present a completely transformed structure of a place with comparisons carried out with the help of current and past appearances and often results are striking enough to get you by surprise. And there are many souls in the world who consider aerial photographs as collectorâ€™s pride. Aficionados across the world stock up the huge range of aerial photography collection of the places or the areas theyâ€™d been to or they wish to go to keep track of changes subjected to them while keeping up with the time in the alley.

Oldaerialpictures.com, with more than a million aerial photographs of city views in UK and ranges varying from \hat{A} 1/2 km to 5 km and the time span covered, which is wide enough to make you gape and wonder about them, from post WWII 1945 to present date, we offer you the unequalled chance of owning history your ancestors have lived. You have the chance to know what your place and what your antecedents have been through and by buying the incomparable aerial photographs as a tribute to your predecessors you have a chance of saying them thank you folks, in your own way. Oldaerialpictures.com presents you the most versatile and exhaustive range of high quality photographs available of almost every area in UK at prices which will make history look lighter and a delight to afford along with lightning fast delivery both in physical form and through email.
