How can I get in my Acer laptop if I lost Windows password by [Ander Winger](#)

How can I recover lost Windows password if my Acer laptop logon password forgotten?

Q: Today I change my password on my Windows laptop and log off, but after a moment, I wanted to get back on that then: THE PASSWORD YOU INPUT IS INCORRECT! I tried every password I have ever set and failed. Then I looked it up, and it said I have to reinstall my windows OS. Is there any way to reset the lost Windows password without formatting hard disk? There are many precious important data stored on my laptop, so I donâ€™t want to reinstall Windows.â€•

Well, there are various methods to change Windows password when your Windows password forgotten or lost. The most conventional method to reset the lost Windows password is through another administrator or with the help of a password reset disk as the Microsoft suggestion. But if these 2 methods donâ€™t work for you under most circumstances, Safe mode is the best choice for Windows users who forgotten Windows password except for Windows 7/ Vista users, and the most effective way to bypass a lost Windows7/Vista password is utilizing Windows password recovery tool.

Recover lost Windows password on safe mode:

Step1: Press â€œF8â€• when computer is booting till the Windows startup mode menu coming up.

Step2: Select â€œSafe modeâ€•, and then choose â€œadminâ€• account (no password by default) to ent computer.

Step3: Click â€œStartâ€• and select â€œRunâ€• to input â€œcontrol userpasswords2â€• on the searchin â€œOKâ€•.

Step4: On the coming screen, click the name of the user account that you want to reset the password for, and then click Reset Password to reset its password.

Change Windows 7/ Vista password with Windows password recovery tool:

To reset lost Windows 7/Vist password with Windows Password tool, youâ€™ll need another computer that you can run as administrator, and prepare a blank CD/DVD or USB flash drive (USB flash drive is recommended),CD-ROMÂ±RW drive is required if you want to use a blank CD/DVD for Windows 7/Vista password recovery.

Step1: Download and install Windows Password Unlocker in the computer that you can run as administrator,

Step2: Burn a bootable password reset disk with a CD/DVD or USB flash drive.

It will take you only minutes to create a password reset disk.

Step3: Restart your locked PC form the password reset CD/DVD or USB flash drive.

Youâ€™ll find all user accounts on the computer with its password status displayed under WinPE. There you can select your target user to reset its password to blank.

Notes: Your Windows 7 password will be reset as blank. Thatâ€™s means you should not type in password when you enter you computer after Windows 7/ Vista password reset.No any loss or damage to your computer data or settings will occur during or after Windows password recovery resulting from its ready-only and non-destructive abilities.
