If you are thinking to go on a vacation, you should opt for a low cost company, because they have special offers during the holiday seasons and you will have airline tickets for cheap prices to choose from. They usually have a lot of special offers for customers who want to fly with family members, groups of several people, and if you know the exact date you will be returning from your trip, you might want to add that, because that way you will get discounts and you'll get airline tickets at the cheapest price.

Many people do not choose the low cost airline companies because they are skeptic about the safety, punctuality and basically all the things that include this kind of service. But they are wrong, not everything that comes cheap is bad. Sure, you will not get free drinks or free food, because they already sell the airline tickets for cheap prices, so there is no way they can give you other stuff for free.

At the expensive companies on the other hand you will probably get some crappy food that will not compensate the amount of money you paid for the tickets. So it's up to you to decide if you want to go for the much more expensive airline companies or for the low cost ones. Not everyone is looking for airline tickets for cheap prices, it depends on everyone's budget.

But if you are a part of the middle class, you are a hard working man, trying to provide for you and your family this is a great way to travel and save money in the same time. This way you will save some money for other more important activities in life, or if you are on a vacation trip with your family, you can use that extra money, that you would have alternatively spent on the airline tickets, to buy souvenirs, shop for stuff that will remind you of the great time you had on this particular trip. When spending money is a problem, there is nothing more rewarding than the smiles on the faces of your loved ones, when you are able to afford to buy gifts and other fun stuff.

The bottom line is if you are thinking to go on a vacation with your family or other loved ones, or just in a simple group of friends, it's better to get a bit organized and plan ahead. Go get airline tickets at the cheapest price when you know for sure the date you are going to be coming back. That, and the fact that you will be buying tickets for several people, will get you airline tickets for cheap prices.
