Giclee printing London may be something that you are not overly familiar with unless you are a fan of modern art or work in the printing industry yourself but it is nonetheless frequently sought after. Chances are that even if you have never heard of a giclee printer London before you will still have come across something produced by them at some point in your life. With that in mind here is a brief introduction to giclee printing London:

For those of you who have never heard of it before, giclee printing London is the term for high quality images produced by ink-jet printers. Originally the phrase referred exclusively to images produced using the IRIS printer (a large-format colour ink-jet printer launched for prepress proofing in the 1980s) but has now been genericised to refer to all high quality ink prints. The neologism was originally coined in the 1980s by a print maker called Jack Duganne who wanted a term for the new generation of high quality printed pieces of art. Since then giclee printing London has grown in popularity due to the innate qualities of work produced by a giclee printer London.

Giclee printing London is typically used to reproduce original pieces of work create by artists. If you have bought a print of a painting in the last quarter of a century then in all probability you will have come up close and personal with some giclee printing London. These two-dimensional renderings of famous works of art changed the game in that they raised the quality of prints far beyond that of their predecessors.

When it comes to giclee printing London the quality and clarity of the image is of paramount importance. High quality printing hardware is needed in order to get prints which have good definition. Giclee printing London therefore has to be of the very best quality and can often be very expensive.
