Great home accessories: Slankets by [Mary Porter](#)

Article published on June 19th 2012 | [Business](#)

More and more people are being converted to the virtues of Slankets. These comfy sheets-cum-garments are favoured by many people who want to be able to relax in the comfort of their own home. Slankets are ideal to have when you want to lounge around the house or keep warm in the middle of winter.

Deriving their name from a portmanteau of their constituent elements, Slankets are large fleece blankets with sleeves incorporated into their construction. They could be described as a cross between blankets and dressing gowns and are bought by people for themselves and as gifts for friends and family.

The beauty of Slankets is that they are soft to the touch and lightweight but have the inherent insulating properties of fleece blanket. They are designed to keep your entire body covered and cozy while you still retain the use of your hands. Advocates of Slankets will tell you that they are more practical than traditional alternatives and therefore are much more desirable. The sleeves mean that you can do things like reach for a drink or flick through a book or magazine while still retaining the warmth and comfort of being wrapped up.

All in all you could argue that Slankets are making the humble blanket obsolete. They are simplistic and practical and look set to stay for the time being at least. Therefore if you know people who are difficult to buy gifts for "or want something luxurious to enjoy for yourself" then Slankets are the way to go.

Where can I find a comprehensive selection of Slankets and other novel gifts like a Fridge Monkey?

If you are won over by the benefits of Slankets then you need to find a reliable supplier which stocks genuine products manufactured by the company. It is always best to locate a registered stockist so you enjoy peace of mind that you are getting authentic items.

One company which stocks Slankets can be found by looking at Morenovelideas.co.uk. The firm can also supply you with a Fridge Monkey so the website is certainly worth a visit if you get the chance.
