Occupational Safety and Health Administration, an agency of the United States Department of Labor, was created on December 30, 1970. Formed under the Occupational Safety and Health Act and providing OSHA safety Manual, its mission is to ensure safe and healthy conditions at workplace in order to prevent work-related illness, injuries, diseases and wrongful deaths by setting and implementing safety standards and by educating people by providing training and assistance.

OSHA Compliance Group, Inc. is one of the first safety compliance companies to offer agreement with IS Net world, PEC Premier, PICS Auditing, Safety Council Solutions and others. They are currently the industry leader for providing quality safety programs with top notch customer service at a reasonable price and offer osha compliance training too. They have 24 hour customer service and when you call them they will always get a live person answering your phones to help you.

They can supply your business a safety manual that is custom specific to your industry - and is in compliance with all applicable Federal or State OSHA requirements. Each Osha Safety Manual is custom built, beginning with the combination of all the standards that are needed to meet the necessities of your Industry. Your company's safety information is then integrated into the document, using approximately fifteen different variables to create your company's OSHA compliant safety manual. Each manual also includes a safety training program and 30 safety forms.

If OSHA doesn't get you, the lawyers probably will. Avoid costs and time lost resulting from accident investigation, depositions, lawsuits, and paperwork. Avoid stiff penalties; as of June 14, 1994 OSHA raised the minimum penalty from \$5,000 to \$25,000 and even criminal charges can be imposed. With their help there are no more worries if OSHA visits. They will supply everything that you need to complete your safety and health management plan. Osha Safety Manual is something which is required by most of the companies.
