Coveted Jobs in DRDO, Banks and Indian Army Leads the Race of Recruitment by [Preeti](#)

Article published on December 23rd 2011 | [Career](#)

Plenty of students are opting for jobs after finishing their education, in fields which are related to their studies while some are choosing to join such services where a generalised knowledge is required. In case of banking and army recruitments, people can get engaged in different age groups and in different posts. There are different posts for people with different educational qualifications. Plenty of opportunities are thereby created for people who are interested in joining the DRDO, Indian army and various banks.

Bank recruitment provides lucrative futures-

People, who are able to get into bank jobs after finishing their education, can be assured of a bright future. There are various types of posts in the banks which can be taken up by the interested candidates. These posts range from the clericals to the officers. The latter category again has further subdivisions depending on the type of work and can be related to IT, mutual funds, loans, insurance and many other sectors. A big advantage of the bank recruitment 2012 would be that the recruits can work their way up the ladder of promotions by working in the banks. With experience and time, their posts are improved and the bank employees are able to get increments in their salary over a period of time. Gradually, the officers can get promoted into higher posts, while the entire time, they are assured that they have a lucrative future.

Defence research wing of India lets people work at highest level-

DRDO recruitment has been a very favoured means to work in India's highest defence organisation. Working in this organisation means that the people have to be deal with sensitive issues related to the government and nation's security. Students with bachelor's degree in different streams of engineering are eligible for junior and senior research fellows, for which they have to appear in the DRDO recruitment process. Branches of electrical, electronics, mechanical, computer and aeronautics are the streams in which recruitment is possible for the eligible students. For the senior research fellow DRDO recruitment, the candidates should have post graduation degree in engineering and technology subjects. These recruitments are considered as golden chance for the engineering students who want to work in their core subjects. And finding a job in the Defence Research and Development Organisation of India is perhaps the opportunity of a lifetime for them.

Chance to serve the country in different capacities through Indian army recruitment-

Thousands of people are turning up for interview and written exams for the purpose of Indian army recruitment, which is awaited by many people. Since it is possible to be recruited in a variety of posts in the Indian army, the Indian army recruitment is much sought after by the people of India. Being an institution in itself, there are requirements of employees at every level of the army, starting from the grade IV jobs to the officer's posts. With time and performance, the recruits would be promoted to higher levels and this is an impetus in itself for people to join the Indian army.

Recruitments in each of the army, DRDO and banking sectors has its merits and people from varying regions of India are expressing their interest to be a part of these jobs. The applications are coming in hordes from various people into different posts, making the recruitment very much sought after.
