You are a man and you are aware of cord shirts and cord slim shirts. But do you know what these attributes of a dress shirt actually do? Are you wondering at the question because it seems bizarre? Read on and you will understand why this question is significant. Logically speaking cuffs and collar makes any shirt look presentable. And it's not only that. It is the collar and cuffs that help designers think of different styles and types.

The purpose of a shirt collar is to frame the face. Irrespective of what you wear on top of your shirt, collar is always visible. Can you imagine a person wearing a shirt with the collar not visible? How do you think he will look? Exactly, he will look funny. So now you know the importance of a collar, which you had never paid any attention to before.

The shape of your face will determine the type of collar you should wear. For example for a square face traditional collar, narrow point collar, tab collar, hidden button collar, and button down collar look very good. For a diamond face wide spread collar, medium spread collar, or varsity spread is ideal.

When you wear a jacket over your shirt, apart from the collar the shirt cuffs are visible. The ideal arrangement is to make an inch of the cuff visible past the jacket sleeves. The popular shirt cuffs are the French cuffs and the Button cuffs. Button cuffs are single cuff shirts and they fit in snugly on the wrist with the help of buttons. There may be adjustable buttons or a single button depending on the style.

French cuffs have casual shirts measurement, which can be folded back. You can fasten this type of cuff after the fold, and it is this feature that adds an elegant look to the shirt.

Now that you know more about shirts and collar, you would want to get the best shirts that are worth their price. To do that you can visit the Jermyn Street Stores.

Jermyn Street Stores have the latest styles that will never make your shirt shopping boring.
