Engraved Champagne Gifts | Personalized Champagne Bottles by [Riley Poole](#)

Article published on February 25th 2012 | [Customer Service](#)

Engrave-A-Remembrance is an online custom gift service that specializes in engraved champagne gifts. The company offers gifts that are completely unique and centered around whomever is to receive them. There are many different styles and types of personalized champagne bottles to choose from, which allows for further customization. The engraved champagne gifts come with two tall flute toasting glasses and are packaged in sleek black silk-lined white boxes.

Engrave-A-Remembrance's engraved champagne gifts can be taken out of the cabinet again and again, year after year, so that they bring back memories of the special event for which the personalized champagne bottle and glasses were first given. The original bottle of champagne may be gone, but the tall flute glasses will continue to sparkle and serve the purpose of bringing people closer together in sharing a drink from them, remembering their love and appreciation for each other.

There are many different occasions where giving one of these personalized champagne bottles would be appropriate and optimal, really. Mother's Day, Father's Day, Graduations, Christmas, Marriage, New Year's Eve and Day, Corporate Events, Valentine's Day, Birthdays, or just because these are all occasions that warrant commemoration, but often people find themselves giving the same gifts over and over. But, engraved champagne gifts from Engrave-A-Remembrance can be that unique something to really surprise a gift-receiver on one of those aforementioned important days.

Pricing is affordable, especially considering how long these personalized champagne bottles will last and work their magic on fond memories. There is a great selection of bottles and glasses, including fine imported Mikasa crystal stemware and American-made tall flute toasting glasses. The bottles and the glasses are engraved with whatever heartfelt words a person wishes to convey. Aside from the personalized champagne bottles, too, there are other engraved gifts, such as a one-liter wine carafe gift. The wine carafe is something that can be ideal for engraving company logos on the decanter for marketing and promotions, as well as being a personalized gift for an individual. Engrave-A-Remembrance offers both services as options.

Engrave-A-Remembrance's website displays the wide array of foreign and domestic types of champagnes that can be selected from to become the customer's own personalized champagne bottle, or other engraved champagne gift sets with tall flute glasses.
