E cigarettes: sanity, safety & pleasure guaranteed by [Chris Warne](#)

Article published on December 12th 2011 | [Health](#)

Electronic cigarettes are prototypes of the real cigarettes; they enable you to enjoy the excitement of smoking, holding your cigarettes, without placing your wellness at stake. Smoking is enjoyment that guarantees psychological satisfaction to all smokers. Most people who state that they smoke in nervousness, additionally add that the very act of holding a cigarette gives them the satisfaction of being supported. Electric cigarettes give smokers the identical sort of fulfillment minus the hazardous residue or toxic compounds. Asaro a German brand get you guaranteed electronic cigarettes. These cigarettes are the best in quality and superiority. Atmosphere friendly e-cigs encouraging items are its forte. They also save you money in the long run. The paraphernalia of electric cigarettes might be slightly costly but they prove really economical in the long run.

Asaro's electric cigarettes come you to in a start-up electric cigarette kit, which is comprehensive of a rechargeable battery, a built-in plug charger, three nicotine fuelled cartridges, and a plastic carrying case that gives your smokeless cigarettes a feel of the classic packet of cigarettes. After you invest in this start-up kit once, you are simply left with exchanging the cartridges periodically. A cartridge last for about 20 smokes, thus one cartridge is equivalent to twenty tobacco cigarettes. Therefore nineteen cigarettes save about \$3.5 every period, as well as yearly it saves around \$500. Therefore one gets health, and saves money as a bounty. Therefore we call electric cigarettes a smoker's heaven. Smoker gets the desired feel by pushing the lid and producing artificial smoke with vapours and yet it does not cause any damage. It will save & protects one's heart & lungs from illnesses, pain and bitterness.

Also e-cigarettes leave no stain, no smell, and no scars on hands, fingernails or mouth area. Asaro's e-cigarettes generate rings of smoke as you would expect but the smoke is not harmful and it will furthermore enable the passer-by and your neighbors a sigh of relief. However, the smoke will give you a light hit when you inhale deeply. The popularity that this product has in European market is specific and unique to Asaro's electronic cigarette. This can be attributed to the precision and technical adroitness with which our e-cigarettes have been designed. Asaro's products give the user a exceptional smoking sensation, feel and physical appearance.

Smokeless cigarettes permit you to feel healthy, healthful and energetic. These are yet safe and sound on others, and environmental friendly. E-cigs are free from any toxin or deposits that could hurt anyone and this makes them enjoyably addictive. Each of Asaro's products is tested on a variety of safety environmental and other required parameters. An e-cigarette looks feels and smokes like a actual tobacco cigarette, minus the harmful materials or vapours of a actual cigarette. The only emission is the cloud of odourless smoke mixed with nicotine vapour that is not unsafe for anyone, neither the cigarette smoker nor the people around. The odourless vapour simulates actual smoke and disappears in the air quickly. Since smokeless cigarettes are battery operated, they produce no fire and are safe to use everywhere: airlines, hospitals, and restaurants etc.
