Fret No More About Excess Hair with Laser Hair Removal by [Lauri Hersh](#)

Article published on April 23rd 2012 | [Health](#)

Gone are the days of painful hair removal techniques as Boca Raton FL and the rest of the world enjoy painless procedures through laser hair removal. Men can feel more comfortable with their preferred clean body, and women can feel free to dress in any type of clothing without having to worry about stubborn growth of hair.

Laser hair removal fully gets rid of undesirable hair through regular treatment. Compared to tweezing, waxing, and shaving, it lets individuals stay away from the inconvenience of nicks, burns, and bumps. Body parts like the face, underarms, arms, legs, and bikini line are common regions for laser hair removal among the female population. For men, they often opt for this type of procedure to remove back and chest hair.

Laser is incredibly precise and can focus on coarse, dark growths while leaving your skin unharmed. It only takes a part of a second when eliminating a lot of follicles simultaneously. Above all, laser hair removal treatments produce long-term and pleasing effects. Both men and women can definitely benefit from such procedures, enabling them to feel much better regardless of what they wear.

Ahead of the treatment, the patient's skin will be rinsed and applied with alcohol. S/He and the doctor will have to use safety goggles to safeguard their eyes from the laser. The right laser light energy settings will be placed based on his/her level of pigmentation and the sensitivity of the specific spot.

Boca Raton laser hair removal entails laser being taken in by the pigment in hair follicles. Laser throbs to vaporize the pigment, disabling follicles and suppressing hair growth. Through the most sophisticated laser technology Boca Raton doctors are offering, patients can choose quality laser hair removal treatments.

While the laser hair removal Boca Raton medical practitioners carry out might make patients experience a gentle, tingling, or warm sensation, the dynamic cooling device (DCD) integrated in the laser allows them to enjoy a pleasurable treatment. As some parts of the body tend to be more delicate than others, topical anesthesia is utilized to reduce patients' discomfort when delicate areas are preferred for the treatment.

People may benefit from having the kind of skin that's so smooth with the assistance of Boca Raton laser hair removal procedures. In addition, they can choose Boca Raton liposuction that focuses on specific areas of the body which they would like to get sculpted for a more inviting body shape.
