The market is crowded with electronic Shaver Brands. Philips, Panasonic, Braun, Remington like companies are fighting hard for maximum sales and top positions. Every company is praising their product and making it difficult to choose one. This article will help you out and provide you an accurate review of top Electronic Shaver Brands in the market. Each of the following products are offering a specific set of qualities, so choose what suits you the best.

Philips Norelco 1280X/42 Senso Touch Shaver Electric Razor

The hottest product in the market right now, this is considered to be the future generation electronic razor. The biggest feature is its adjustability according to your face pattern. Most of the skin burns happen due the wrong angle cutting by blades but this new Philip Norelco series razor minimizes it to give you painless shave.

This product is having special hole feature, which makes it a hygienic one. Word "hygienic"™ is rear in razor market hence this product is famous among generation. There are no such complaints of burns or painful itching with Philips Norelco 1280X/42 Senso Touch Shaver from the time it is available for its users. One cooler factor, which is quite common now days, is dry and wet shaving. Philips Norelco 1280X/42 Senso Touch Shaver Electric Razor also provide wet shaving, you can shave in your Shower without any complaints.

The problems u will face with this product are its Price and Weight. It's too bulky to carry along with and prices are also very high.

Panasonic ES8243A Arc IV Nano Mens Rechargeable Shaver

Panasonic is using Nanotechnology to provide you the best shave possible with this shaver. Use of Sharp blades at an angle of 30 degrees putting speared pressure on your face, results in a very smooth shave. The reviews are very good, according to its users, Panasonic ES8243A Arc IV Nano Mens Rechargeable Shaver is very easy to handle and use.

The other features are expended cutting surface and arced shaped blades, these features help in ultra smooth shave and fewer burns.

Braun Series 7790cc Pulsonic Shaver Electric Razor Review

Joining the party, Braun series 7790cc Pulsonic Shaver is offering adjustable heads for a very Smooth Shave. Its adjustable head will adjust according to your face. It's very easy to check the status of battery in this product with the help of battery display LED's.

However there are a couple of complaints regarding this product such as poor handling, bulky structure and small size of heads.
