The New Express Starter Kit by [Joe Volcano](#)

Article published on February 20th 2012 | [Health](#)

Volcano Ecigs, the creators of America's best electronic cigarette have always strived to make the vaping experience more convenient to vapers across the country. This time is no different, as Volcano has just released their new product, making the vaping experience for the new-coming vapers even more convenient. Enter The Express Starter kit. A smaller version of the Volcano Kit, the Express starter Kit is a USA made Electronic cigarette kit that caters to the new vaper's needs. A high quality product that is simple, and affordable.

With the Express Starter Kit from Volcano, the transition from analog cigarettes to electronic cigarettes has never been easier. This kit is for those who are interested in making the switch to electronic cigarettes, and who want a simple way of converting. The kit includes a re-chargeable, high powered Lithium-Ion battery that comes in the colors black or white, 2 pre-filled cartomizers, and a USB charger to keep your battery charged and ready to vape at all times. This kit gives the customer everything they need to make the switch to electronic cigarettes.

The Premium USA made Volcano cartomizer comes in the Menthol or Tobacco flavoring with the strength of your choice. The Cartomizer holds .7ml of eliquid and lasts approximately 2 packs of cigarettes. If needed, 5-pks of Volcano Cartomizers are sold at only \$11.99, and come in a wide variety of flavors and strengths to choose from. Or save money and refill your cartomizer with a bottle of E liquid by just opening the cap of the cartomizer and soaking up the medical grade cotton. Our USA Made Eliquid contains only the highest grade Nicotine, Propylene Glycol, and vegetable Glycerin. A healthier alternative to analog cigarettes that contain up to 4,000 harmful chemicals. Volcano's Eliquid comes in a 30 different flavors like Menthol, Tobacco, Blue Water Punch, and even coffee.

Volcano's Ecig's Express Starter Kit is sold at only \$ 22.99. A low price that allows the customer to try out a great quality electronic cigarette, without emptying their wallets. This kit gives a great vaping experience, and no hassle. This ecig is small, about the size of a regular analog cigarette, giving its vaper the feel of a regular cigarette. The best part is that, when ready, this kit can be upgraded by purchasing another battery, the Volcano Pack that charges batteries on the go, or even more cartomizers that come in your choice of flavor and strength.

We understand that most electronic cigarettes out there are too complicated and that is the last thing a smoker who is interested in switching to ecigs needs. The Express Starter kit was created with the customer's comfort in mind. This Kit is convenient, inexpensive, easily upgradeable, and a great choice for anyone interested in making the switch to electronic cigarette.

The Express Starter Kit is a great kit to add to our list of Electronic Cigarette kits. Other popular kits are the Magma and Inferno Kits for our more heavier and long-term vapers.
