A Short Review of Motorola XPR 6350 by [James Blee](#)

Article published on January 23rd 2012 | [Mobile Phones](#)

The motorola xpr 6350 is one of the commonest names you will get to hear in the markets related to radio communications. It is obvious that such a mass preferred brand is certain to have its reasons for the admiration and popularity. To be honest, there are several such reasons for which you can blindly rely on this innovative and attractive model.

The uniqueness of this radio lays in the fact that it one of the few models that combine the very bests of portable radio systems and digital technology thereby enabling you to communicate freely without any noise or external disturbances whatsoever.

The other striking feature that this radio enjoys is the rare its availability in both UHF as well as VHF frequency brands. It has a big list of innovative features that is real impressive. It possess a thirty two channel capability with a increased capacity thereby allowing the users to communicate both through data and voice channels that is always very critical to almost every business requirements.

The motorola xpr 6350 radio is one of the most user friendly models that comes with emergency buttons and navigation buttons that are programmable which serves to be more than useful in case of emergency communications. It has a minimal power requirement and a great battery performance as well that can be used at a stress for long hours.

If required, facilities are there for total privacy too and if necessary even text messages can be forwarded over the channels to serve as discrete notations. The radio sets comes with bright LED indicators that helps a lot in diagnosing calling, scanning and monitoring features. Provisions are there to alert the superiors at times of emergencies by a single press of a button.
