Getting inspiration from some canvas printing for your wall decoration by [Andrew Bourke](#)

Article published on July 26th 2012 | [Photography](#)

Do you need some inspiration with your wall decoration; it can be hard sometimes to think of what to hang on your walls and what sort of colour scheme to go for too. There are lots of different types of wall art you can have hung and I'm here to help you to decide and by giving you a few different options then hopefully it gives you some inspiration as to what is the best move for you.

One idea you could have as a wall decoration is if you are in an art and crafts mood then you get a load of old newspaper and magazines and scrunch them up so that you create a collage of different shapes and sizes and also most importantly you will end up with lots of different colours which is a very pretty site.

Another good idea would be to either make our buy some state string art to place on your walls, this is a very different technique that seems to becoming very frequent in homes for interior design especially as they seem to give of not only a good art and contemporary look but there are also very 3d looking to.

If you have some photos that you really love but want to enhance them in a certain way then having some canvas printing made from your images will really make them look special, if you have you photos on your computer then you can send them over by email to a canvas printer to print on canvas for you and then you will be able to hang something that resembles artwork but with your very own personal images on your walls. Canvas prints can be used either individually or you can arrange a few different canvas prints in a row which is very effective and not only does it look great but it also helps if your try to use up some of that wall space as you can space each canvas prints out from another to cover some wall ground.

One really good idea if you do want to get some canvas prints made or just the one canvas print made but you want something really different then you can ask the canvas printers to customise a canvas print by placing your favourite clock over the canvas and have your favourite picture in the background. By doing this you get a picture i.e. the canvas print along with having a clock on the wall at the same time.

I hope some of the ideas above gives you some ideas and I hope you find what fantastic wall decoration that is out there to your taste as there's lots of different things you can look into to get your thoughts and imagination running wild which is really great, especially if your redecoration a room or looking to give a canvas product or wall product as a gift to someone and if you end up getting something that you love and want to keep for a long time then that just perfect.
