Psychic Connection: Do You Have It? by [Yuri Romanov](#)

Article published on January 31st 2012 | [Religion](#)

When calling psychic hotlines or reading online resources regarding paranormal matters, it is very common to hear the phrase "psychic connection". Many people do not know what this exactly means. However, the truth is that the phrase could mean differently for various kinds of people, depending on personal experience and exposure with the psychic spiritual plane.

Inseparable best friends are good examples of people who have a very strong psychic connection. Often, best friends share the same "gut" feeling. Whenever they talk, each one of them usually knows what the other person is thinking even before actual words are said.

Most twins also have a psychic connection as well. Whether they are separated by long distances, twins usually feel what the other half is doing. If one of them gets into some sort of danger, the other instantly senses the danger. There are many stories that are told regarding these kinds of stories. The reason for this is that twins have a very strong psychic connection since birth. As they grow towards adulthood, this connection is even more intensified and sharpened.

It is easy to conclude that psychic connections only happen to people who are extremely close to each other. But this is not the case. There are also instances when psychic connection can happen between two or more people who are totally unrelated to each other. In short, psychic connections can happen between strangers. There are times that these connections can be used to make an accurate reading about a certain person. When the prediction or realization comes from the mouth of a stranger, then this immediately confirms that accuracy of the psychic readings.

Psychic hotlines are extremely popular and effective because psychic connections among strangers usually happen in these platforms. This is the reason why it is important to carefully choose the psychic expert you will work with. Ideally, the perfect choice is someone who has that certain vibe or "spiritual connection" to you.

To know if the psychic you are talking to on the phone has a unique connection with you, follow the following guidelines:

1. Ask some important questions. Try to test the psychic regarding specific parts of your personal life. If he gets majority of the answers in an incorrect manner, then maybe it is time to find someone else.
2. Assess what your "gut" feels about the psychic. No matter how good or skillful the psychic may be, it is important that you feel good about him or her. If you feel repelled with the aura of the psychic, or if you don't sense a good vibe, think twice about proceeding.
