The Close Interrelationship of Astrology and Numerology by [Yuri Romanov](#)

Article published on March 20th 2012 | [Religion](#)

The words numerology and astrology are no longer uncommon even to the most common people today. With the consistently growing popularity of psychics and their psychic readings, numerology readings and astrology readings are always a part of the issue. However, if people will be asked, a lot of them would not be able to exactly know the meaning of each of these terms.

So what indeed are astrology and numerology and how do they differ from each other? What aspects are being governed by one and which are governed by the other? The following discusses the answers to the preceding questions.

Astrology and numerology are just closely related. Astrology believes in the concept that each number in the 0 to 9 series corresponds to a celestial body in our solar system. Both concepts provide ways of understanding and analyzing a person's personality and character. Both astrology and numerology have helped people to predict what the future holds and be able to do something before these come to actually happen.

Whoever is not familiar with Pythagoras, the great mathematician? His work, the Pythagoras Theorem, is still alive in school and scares many of the students. However, his influence does not stop at this as his followers are aiming to uncover the inner and spiritual meaning of the numerical structure of our lives.

The idea about such numbers has influenced ancient civilizations and up to now is still influencing modern technologies.

Numerology is said to describe people's lives in terms of:

1. Expression. It covers the person's purpose in life, spiritual mission, as well as opportunities.
2. Soul urge. This represents the heart's desire. It reflects the person's inner likes and dislikes as
3. Dreams. These are considered the basis of one's personality.
4. Life path. From the name itself, life path influences the direction in life that a person must take.
5. Challenges. Life is full of this. And there have to be means of overcoming such that a person should have.
6. Pinnacles. The pinnacles describe a person's life's major stages.
7. Personal year. This aspect tries to illustrate how life will be flowing in the succeeding years.
8. Birthday. It is the vibration of the person's birthday that is being studied.
9. Compatibility. This aims to help people find relationships through their numbers.
10. Divine triangle. This is considered the spiritual map.

Among the numbers 0 to 9, here are the corresponding meanings.

Zero (0) is governed by Pluto.

One (1) is governed by the Sun and conjunction.

Two (2) is governed by Moon and opposition.

Three (3) is governed by Jupiter and Trine.

Four (4) is governed by Sun or Uranus.

Five (5) is governed by Mercury and Quincunx.

Six (6) is governed by Venus and sextile.

Seven (7) is governed by both Moon and Neptune.

Eight (8) is governed by Saturn.

Nine (9) is governed by Mars and Square.

Numerology and astrology have helped people from all walks of life. So anyone who is interested in such will surely benefit much.
