MP4 to MOV for enjoying quality family-made movie by [Justine Biber](#)

Article published on December 22nd 2011 | [Software](#)

Are you fun of making videos or copying the videos of favorite artists? Do you love to film yourself and play with the song? Do you want to have you personal video and play it all over again? I guess the answer is yes, since a lot the people of today are using cameras and cellular phones to keep on recording of clips and moments of their friends and family. Sometimes we use to get videos of the most special moment in our life like weddings, birthdays and a lot memorable moments. Then we try to store those videos in our computer and suddenly somebody ask for a copy. Now we are in trouble in looking for a converter that can help us converting the files in the correct format. But we have a problem we can't find a converter that is reliable and efficient. Like MP4 or MPEG are the most common format file that are been used in making short videos and files then attached of the videos and formatted as a whole video. But the problems are that it is not common in since much of them are using Microsoft formats. A converter that can't change then quality of the video with its sound and graphics are still intact. We are looking for a converter which can have the MP4 format per generated to mp4 to mov. Then if you're a person who loves to make movies or combining pictures of your friends and make it in to a movie. Then you need to find a converter that is for MAC or helps to Convert Mp4 to Mov so that you can save it to your computer or share with friends that are MAC or Apple Users. Then you want it to be accessible to any of the following Mac OS: MAC OS X 10.4, Mac OS X 10.5 Leopard, Mac OS X 10.6 Snow Leopard and Mac OS X 10.7 Lion, Unibody Macbook, Mac Pro, Mac Mini, MacBook, MacBook Pro, MacBook Air, iMac and PC with Mac OS X.

Now you can do it with the Mp4 to Mov Converter Mac this software helps you converting your edited picture and clips of your friends and family. In this way you can let them have the smile on their faces. Concerned if the software would take time and would be loading so much; it is not for this converter is fast and efficient. But do you doubt that this converter would destroy the resolution and quality of the video, it would still not for this converter offers a lot. For in this converter if you are not satisfied with the resolution of the video you can have it adjusted. At the same time when using this converter you can have your converted file played with the following software such as FLV player, Apple QuickTime Player, MPlayer, and MPEG4IP WMP4Player. Now you can enjoy making more videos and clips that your family and friends would enjoy with this converter.
