Why should you choose ERP software for your organisation? by [Antony Wilmer](#)

Article published on December 23rd 2011 | [Software](#)

Customization, integration capacity and brand are three major fields of concern while Enterprise resource planning solutions. Microsoft ERP solutions excel in all these parameters.

To manage and coordinate resource, information and functions of a business Enterprise Resource Planning is a must. Customization, integration capacity and brand are three major fields of concern while Enterprise resource planning solutions. Your ERP solution needs to have ends open for future growth. You might need some modifications with change in operational scale. But, the required modification needs to be a minor and least costly. Microsoft ERP is highly customizable. To meet the growing demand of your business it needs simplest type of modification. With just adding or deleting columns, changing design elements, inserting logos you can use Microsoft ERP in your business process in future.

Integration capacity of erp software with other software and technologies is higher. It helps you to take the advantage on your IT investment. Higher integration capacity of Microsoft ERP minimizes the cost on additional training for employees. It also adds to their efficiency regardless of the used applications with the change in scale of operation. Rooms for modification of integration capacity is always open if you go for the Microsoft ERP. For modification, you do not need to purchase or install any middleware or additional software package.

Microsoft is a trusted and tested name in the field of ERP solutions. It has exposure to different industries, organisations of different scale, local business requirements. This exposure ensures that you purchase quality solutions for your organisation. Microsoft ERP solutions are available on attractive discounts. All these factors make Microsoft ERP a feasible option for business ventures. You can order for them online.
