Affordable Wedding Dresses can be Perfect when It's All about You

It's your day; it's your gown, so choose the one that's perfect for you. Here are some useful tips to get you started in your wedding dress shopping.

• The style should suit your personality, mood, taste, and body type.

- o Length
- o Sleeves
- o Skirt
- o Necklines
- o Trains
- o Veils
- o Colour
- o Fabric
- o Decoration
- o Headdress
- o Accessories

• The style should be according to your preferred gown cut.

- o A-line or Princess Cut “ body fit, but flows out going down
 - o Ball Gown “ body fit with a full skirt (overwhelming for a petite woman’s figure)
 - o Empire “ waistline sits below the bust then flows out down
 - o Mermaid “ contour fit from chest to knee then flows out to the hem
 - o Sheath or Column “ straight fit from top to hem (not flattering for a full-figured woman)
- “ The style should be appropriate for your theme, ceremony and reception venues.
- o Fairy tale wedding in a huge cathedral “ long, classic dress with a veil and train
 - o Beach or garden wedding “ short dress with flowers as headdress
 - o Modern wedding in a small church or hotel “ elegant, sharp dress without frills

Although there are so many design details to consider, everything boils down to two key factors when it comes to choosing your wedding dress:

“ Flattering to your body

- o Accentuates your assets and hides the unflattering parts
- o Suits your body type/shape

“ Comfortable to wear throughout the event

- o Easy to manage when you sit, stand, walk, dance and laugh
- o Appropriate to the season of your wedding day

On your special day, wear a wedding dress that will make you look beautiful and feel confident. Give your groom another reason he can’t take his eyes off you.
